

## Project Financing

There are many cases where clients, who would benefit from integrating Madison Energy's technologies into their facilities, experience budgetary challenges that prevent them from being able to readily take advantage of the opportunity. In these instances, Madison makes its technology available through a flexible alternative powered by its own in-house financing. Our financing is structured as a lease buy-out with three available terms depending on the size of the project.

### Overview:

- 12 / 24 / 36 Month Options Available
- 0% Interest Options Available
- Financing is Off Balance Sheet
- Cash Flow Positive
- No Liens
- All Projects Funded by Madison (No 3<sup>rd</sup> Parties)
